

# Simulation Today

Simulation Modeling Services, LLC (877) 474-6858

## AnyLogic Training

Simulation Modeling Services, LLC is now a distributor of AnyLogic, an object-oriented Java-based simulation tool that allows users to build discrete event, continuous, agent based, system dynamics, physical system and multi-approach models – all with one tool.

We are sponsoring Introductory AnyLogic training in Chicago on the following dates:

### 2004

May 10-12  
July 12-14  
September 20-22

### 2005

January 24-26  
March 21-23

The three day class is taught by the developers of AnyLogic from XJ Technologies. It includes hand-on exercises and help in using AnyLogic for your particular modeling application.

Call us for information or see our website.

Of course, we continue to support a wide range of simulation tools in our consulting work for clients in a variety of industries, such as healthcare, manufacturing, material handling and services.

Rainer Dronzek, President  
Simulation Modeling Services, LLC

## Article Index

Past issues of Simulation Today contain valuable information on topics of interest to the simulation community. For your convenience, we will provide an index for all articles in each issue:

Distribution Functions	Fall 2002
Project Management – Dealing with Scope Creep	Fall 2002
Simulation Software Selection	Spring 2003

*Care to have information on your conference, call for papers, or simulation software included in Simulation Today?*

*Send us an email with the details and it we'll run it in the next issue*

## Upcoming Simulation Industry Events

Coming soon

---

*Simulation Today can  
be downloaded from  
our [website](#).*

*You can also [opt-in](#) to  
receive an email  
message announcing  
the release of the  
latest edition.*

## Call For Paper or Presentation Due Dates

Coming soon

## A Listing of Commercially-Available Discrete Event Simulation Software

Each quarter, Simulation Modeling Services, LLC sends an email to simulation software vendors requesting information for this listing. Vendors that do not respond are not included in this listing.

<u>Tool*:</u>	<u>Website:</u>	<u>Latest Version:</u>	<u>Next Release:</u>

### About Simulation Modeling Services, LLC

Simulation Modeling Services, LLC is an independent consulting firm specializing in developing computer-based, process-flow simulation models for its clients. We work in a variety of industries including manufacturing, healthcare, material handling, transportation and services. We support many commercially available simulation software packages and work with our clients to select the tool that best fits their requirements. See our website for more details on projects and case studies.
