Simulation Modeling Services, LLC (877) 474-6858

## We're Moving !

*I find the great thing in this world is not so much where we stand, as in what direction we are moving.*

- Oliver Wendell Holmes

Simulation Modeling Services, LLC is moving to the Chicago area in December 2003. From our offices in Lisle, Illinois we will have improved training and meeting facilities and better travel access to our national and international clients.

In case you have not heard, we are also now a distributor of AnyLogic simulation software. We still support a wide range of other simulation applications to meet your project needs.

### About Simulation Modeling Services, LLC

Simulation Modeling Services, LLC is an independent consulting firm specializing in developing computer-based, process-flow simulation models for its clients. We work in a variety of industries including manufacturing, healthcare, material handling, transportation and services. We support many commercially available simulation software packages and work with our clients to select the tool that best fits their requirements. See our website for more details on projects and case studies.
